RAILWAYS MADE MONEY.

A preliminary report of the Interstate Commerce Commission on the expenditures and income of railways has been issued.

reports were filed on or before November 23, 1894, and covers the operations of 149,559,21 miles of line, or about 85 per cent of the total operated mileage in the United States. The miles of line represented were \$949.-639,075, of which \$309,137,142 were from passenger service, \$617.958.498 were from freight service, and \$22, 420,298 were other earnings from op-\$306,210,744.

The net earnings available for the payment of fixed charges and dividends was \$306,210.744, as against United States a generation ago, and \$260,766,607 for the same roads of the previous year, a decrease of \$14.-

Patent Medicines Have No Standing with invalids and weakly persons who have used Speer's Port Wine. The most successful physicians all over the land and in Europe testify to the superiority of Speer's Old Port Wine for sickly and aged persons.

New Jersey soil abounds in iron and that is why Speer's wines made from Oporto grapes grown on New Jersey soil are so rich in iron and such a valuable restorer of health and strength. Iron enriches and makes more blood and thus restores health and color. This is why Speer's wines are decided by scientists, and physicians superior to California and other port wines.

The question is now distinctly presented whether the people of the United States are to govern themselves through representatives chosen the money of the speculative class is to control the policy of the nation whether the honest and patriotic seatiments of the people will rule, or bribery, fraud and and corruption. Princeton, Ind., Advocate.

No one save bankers are allowed to sresk before finance committee. When the wishes of these gentlemen are fully made known the plundering act will be passed with little or no opposition. The city is alive with sign of some plundering scheme.-National Watchman.

Work such, as we have mentioned.

Read this declaration of John C.

"Place the money-power, in the hands of a combination of a few individuals and they, by expanding or contracting the currency, may raise or sink prices at pleasure, and, by purchasing when at the greatest depression and selling when at the greatest elevation, may command the whole property and industry of the community and control fiscal operations, The banking system concentrates and places this power in the hands of those who control it. Never was an engine invented better calculated to place the destiny of the the many in the hands of the few, or less favorable to the equality and independence which lies at the bottom of free institutions."

Secretary Carlisle during his talk to the finance committee last week threatened a continuation of the bond issue unless his plan was adopted. All the rampant talk regarding the Democratic speakers during the cam-
